JTEPS JW151

25 March 2015

JOINT WARRIOR 151 SUBMARINE, MINEWARFARE, LIVE FIRING AND DENIAL OF GPS TRAINING ACTIVITY

1. Exercise Joint Warrior 151 will take place between 11 and 24 April 2015, delivered by the Joint Tactical Exercise Planning Staff from Faslane (JTEPS). It is a programme of exercises conducted by land forces, warships, submarines and aircraft across the UK. The majority of the exercise is focussed in the airspace, offshore and coastal waters to the north east, north and north west of Scotland. This booklet provides outline information on scheduled activity including details of intended gunnery and aircraft bombing activity at Cape Wrath and in some open ocean areas.
2. The information is correct at the time of going to print but the routine **SUBFACTS** and **GUNFACTS** broadcasts, made during the exercise, will provide updated information.
3. The information provided in this booklet will also be published in Fleet Ops Notice to Fishermen, Defence Training Estate Scotland Notice to Fishermen and Cape Wrath Range Notices. This document is also on the internet at:
<http://www.royalnavy.mod.uk/qhm/clyde/jw>.
4. This booklet contains the following sections:
 - a. Submarine Activity.
 - b. Warship Activity.
 - c. Minewarfare Activity.
 - d. Live Firing and Gunnery Activity.
 - e. Denial of GPS Services.
 - f. Unexploded Ordnance Advice.
5. The warships taking part have been instructed to offer fishing vessels and the wider civilian community every assistance in their dealings with exercise activity. This applies especially when in the vicinity of submarines, when warships are conducting live firing or when GPS is denied for military training. You are invited to contact them via VHF to ensure that military training and civilian activities are sensibly and safely deconflicted.

6. Throughout Exercise Joint Warrior 151 the following points of contact are available on a 24/7 basis to attend to any immediate problems or questions:

Primary - Joint Warrior Duty Controller 01436 674321 Ext. 3401

Secondary - Duty Submarine Controller 01923 956366

HM Coastguard at Clyde, Stornoway and Aberdeen can also contact the Joint Warrior staff directly and will relay information if necessary.

7. If you have any queries, problems, or suggestions as to how JTEPS can improve this booklet, please do not hesitate to contact the Staff Officer Submarines at the above address.

Signed on Dii

A J L Watt OBE
Captain Royal Navy
Captain JTEPS

Submarine Activity

1. The Submarine Activity Grid on the following page shows the areas and time periods where submarine activity associated with Joint Warrior (JW) is forecast. Please note that other submarines that are not part of the exercise may transit the areas north west of Scotland; their activity is not covered in this brief. The daily SUBFACTS broadcast by the Coastguard will provide notification of the actual areas where **all** submarine activity is taking place. During Joint Warrior, in order to keep the SUBFACTS broadcast short, a number of Scottish Exercise Areas are grouped together. The groupings are shown in the chartlet and table in this section.

2. Communications can be established with submarines during JW when they are surfaced or at periscope depth on VHF Ch 16 (working Ch 73). In the event that they are operating with warships, one of the warships will have been detailed to act as the Fishing Vessel Safety Ship (FVSS) in accordance with the Code of Practice. The FVSS has two overarching duties:

- a. To make fishing vessels aware of submarine activity in their vicinity and to provide information and advice to minimise the risk of interaction.
- b. To provide assistance to the participating submarine in compiling a comprehensive surface picture in order to minimise the risk of interaction with non-exercise vessels.

3. It is usually easier to establish communications with the FVSS than with a submarine. However, any warship in the vicinity may be contacted and asked for a report on any exercises involving submarines which are being conducted in the local area. Alternatively, the ship may be used to relay messages or instructions to the submarine if required. All warships, including the FVSS, can be contacted on VHF Channel 16 (working Channel 73).

Warship Activity

VHF Challenges

1. In light of ever changing threats to our Armed Forces, military ships maintain a detailed plot of maritime activity in their vicinity, which includes establishing the identity of small fishing vessels. This can be achieved visually from helicopters or by challenges on IMM VHF radio by ships. Mariners are advised that warships from various Allied Nations will be conducting such reconnaissance and challenges. Areas likely to be affected are the Clyde, North Channel, South of the Sea of Hebrides, the Sea of Hebrides, the Little Minch, North Minch, the area near Cape Wrath, Loch Eriboll, the Outer Hebrides and in the North Sea near Wick. Mariner's co-operation during this time would be much appreciated. A small number of contracted civilian vessels including high speed craft will be operating in the vicinity of the Minches and the Firth of Clyde in support of this training task. Every effort will be made to avoid interference to fishing vessels.

Small Boat Activity

2. From Thursday 16 until Monday 20 April a large number of fast small boats (both contracted civilian and military) will operate east of the Isle of Arran with Warships and helicopters. This activity will remain clear of the main shipping and ferry routes.

Amphibious Operations

3. Amphibious operations encompassing mine clearance, diving operations and the ferrying of personnel to and from shore will take place in Luce Bay from 14 until 22 April.

Minewarfare Activity

1. Mine Countermeasures (MCM) vessels will conduct minehunting exercises using sonar to look for exercise inert mines both on the seabed and moored to the seabed. These may then be investigated by remote controlled submersible vehicles and divers.
2. Towed sweeps for minesweeping will not be used during JW 151.
3. All participating MCM vessels will be thoroughly briefed on local fishing operations in advance of the exercise and are instructed to make early liaison calls to fishing vessels on VHF. Skippers of fishing vessels operating in the vicinity of these ships are encouraged to talk to them and discuss intentions.
4. If any difficulty is experienced a call should be made to the Duty Submarine Controller at CTF 311 OPS ROOM on the “**Fishermen’s Hotline**” number, **01923 956366**. This line is permanently manned.
5. The following MCM vessels will participate in Exercise JW 151:

Name	Nationality	Pennant No
BNS LOBELIA	Belgian	M921
HMS BANGOR	British	M109
HMS GRIMSBY	British	M108
HMS BROCKLESBY	British	M33

Minewarfare Activity

7. The planned minelay and recovery programme.
 - a. **Minelay.** No additional mine targets will be laid without further Notice to Fishermen. All the above areas are established exercise areas with existing targets on the sea bed.
 - b. **Mine recovery.** There is no dedicated mine recovery period during JW 151. This will occur throughout the exercise.
8. Mine hunting exploratory operations will be conducted in Campbeltown Loch; The Firth of Clyde; Inchmarnock Water and Ettrick Bay; Kilbrannon Sound; sea areas to the south west of the Isle of Arran between latitudes 55 20.00N and 55 30.00N and through Beaufort's Dyke to Luce Bay.
9. Liaison between the MoD and appropriate fishermen's associations/organisations, in some cases with individual owners/skippers, HM Coastguard and Marine Scotland have been made to use the above areas. Should anyone consider that their organisation/association should be included in this process in future please contact Lieutenant Commander Tony Hampshire (FOSNNI SMCDO) on 01436 677263.

Live Firing and Gunnery

1. During Joint Warrior, Cape Wrath Range, including Garvie Island (An Garbh-eilean) will be active with various combinations of air bombardment, naval gunfire support and helicopter operations. In addition a Joint Warrior Firing and Danger Area will be activated for offshore gunnery. The Gunfacts and JW Offshore Firing Areas Activation Grid on the following page shows the areas and time periods where gunnery associated with Joint Warrior is forecast to take place. The daily GUNFACTS Broadcast by the Coastguard and Cape Wrath Range will provide notification of the actual areas where all the gunnery activity is taking place.
2. Joint Warrior Firing and Danger Area coordinates are in the accompanying chartlet.
3. It is mandatory that vessels in the vicinity of the Cape Wrath Range keep a listening watch on VHF Channel 16. Further information regarding firing at can be obtained by telephoning:

**Cape Wrath Information Line on
FREEPHONE 0800 833300.**

or **01862 892185**

The number will provide specific information about active/non-active periods and when the Range road (U70) will be open/closed for public access.

Denial of GPS Service

1. Denial of GPS services through the jamming of the GPS signal is an essential part of preparation for military operations and the training is likely to impact on both military and civilian users on land, sea and in the air. The ability to conduct jamming is spread throughout the modern world. Consequently, Military Forces are required to train under such conditions in order to demonstrate the effects it has on systems and to train personnel in other modes of operating. The jamming equipment is located at:

- a. Loch Ewe - 57 51.9N 005 41.1W

2. Jamming of GPS signals may affect equipment using GPS within the North Minch northwards from Rubha Réidh 57-52N 005-48W to Stoer Head 58-14N 005-24W, depending on receiver antenna height. Plots showing predictions of areas where interference can be expected are included at the end of this section.

3. Subject to approval from the MOD to conduct GPS denial training, the planned times of GPS Denial are shown in the time table on the next page. A sécurité message will be broadcast by Stornoway and Shetland CG prior to and on completion of the jamming period, during which time GPS receivers and any related equipment may not function, or may give incorrect position info or default to DR mode. If this occurs, positional assurance will have to be determined by other means and manually updated at regular intervals. Crews should be aware of these limitations and use alternative means of navigation during jamming periods to confirm their position and check the equipment on completion.

4. All military vessels and aircraft will be ordered to maintain a lookout for any abnormal vessel behaviour during jamming periods and warn vessels as required

Denial of GPS Service

5. Stopping the jamming in the event of an emergency can be achieved via VHF to Stornoway CG or Joint Warrior duty controller 01436 674321 ext. 6469.

Unexploded Ordnance Advice

1. The following general advice is offered to anyone discovering anything believed to be unexploded ordnance:

DIVERS	DO NOT TOUCH
FISHERMEN	Contact the coastguard. If this is not possible, lay the item in about 60ft of water, away from shipping routes and mark the position with a float.
EVERYONE	DO NOT TOUCH – dial 999 for coastguard or Police.
